

"Rob is one of my favorite intellectual property speakers... able to capture the key concepts and explain them in a way that is easily understandable. I really appreciate his unique way of interjecting a little bit of his goodnatured personality to get his key points across. You may never look at intellectual property in quite the same way again."

David A. Bohm
Asst. Executive Director
NC Bar Association

"Rob brings his subject to life with real scenarios drawn from his extensive experience...His entertaining presentation to our local bar demystified copyright and trademark issues for general practitioners."

Mark Finkelstein President (2015)
